Retail Price: \$34.99 for a single Sobur 20 pack. Good for recovering from 10 hangovers. Quantity discounts available.

Taken directly from our [product page](#), here is key product information about Sobur hangover cure:

Sobur is the most effective hangover cure supplement available today, as confirmed by our happy customers including CEOs, students, sales executives and even doctors!

Containing the famous Chinese herbal extract DHM & other safe, natural ingredients like Vitamin C & B complex, Sobur is a safe way to instantly recover after lots of drinking and protect your brain & body from a party-fueled lifestyle. Say bye to hangovers, no matter how much you drank the night before.

How Sobur uses science to banish your hangovers

The herbal ingredient Dihydromyricetin (DHM) in Sobur is an anti-oxidant that lowers the amount of GABA in the brain.

GABA, a neurotransmitter drastically increased by alcohol, causes communication between brain neurons to slow down; decreasing cognition, fine motor skills, judgement, and inhibitions.

N-Acetyl L-Carnitine (NAC) has long been used in the medical industry to detoxify the liver, with Vitamin C working with NAC to hunt down and destroy the nasty remnants of alcohol consumption. Alcohol depletes many B vitamins, and Sobur contains large amounts to help recovery, fight fatigue and improve mental agility.

Safe & proven hangover cure supplement

Sobur hangover cure pills are manufactured in the United States, in a cGMP certified facility. Sobur hangover cure pills were developed for ourselves, while we tried to find a way to stay productive after an unplanned night out drinking, and we only consume quality, safe ingredients.

Our ingredients have been used for thousands of years in Chinese medicine. As made famous in New Scientist magazine, DHM (the key ingredient of Sobur) was clinically proven to be effective for alcohol detoxification. Other ingredients within Sobur have long been used in the medical industry; they enhance the immune system, fighting off toxins and improving liver health.
